2. Sullair US Purchaser, Inc. has become a consolidated subsidiary of the Company on July 12, 2017 as Hitachi America, Ltd., a consolidated subsidiary of the Company, acquired Sullair US Purchaser, Inc., which is the holding company of companies that manufacture and sell air compressors with the "Sullair" brand.

## II. Business Overview

### 1. Risk Factors

There were no new risk factors recognized during the six months ended September 30, 2017.

There were no material changes in the risk factors stated in the Annual Securities Report for the 148th business term pursuant to the Financial Instruments and Exchange Act of Japan.

### 2. Material Agreements, etc.

No material agreements were entered into during the three months ended September 30, 2017.

### 3. Analyses of Consolidated Financial Condition, Operating Results and Cash Flows

#### (1) Outline of Business Results

##### Results of Operations

During the six months ended September 30, 2017, the global economy expanded at a moderate pace. In the U.S., consumer spending and capital investment remained firm. In Europe, mainly in Germany, the economy continued to recover slowly. In China, government's active infrastructure spending underpinned economic growth. The Japanese economy has continued its moderate recovery trend, reflecting firm consumer spending due to improving employment and income and upward trend in capital investment.

Under these conditions, results of operations in the six months ended September 30, 2017 were as follows.

Revenues increased 1% to ¥4,376.4 billion, as compared with the six months ended September 30, 2016, due mainly to higher revenues in the Construction Machinery segment, in which overseas sales has increased mainly in China, and in the High Functional Materials & Components segment, in which sales of the electronics- and automotive-related products has increased. The increase was almost offset by the offset effect of the move to transform business portfolio such as conversion of Hitachi Transport System, Ltd. and Hitachi Capital Corporation to equity-method associates and deconsolidation of Hitachi Koki Co., Ltd. in the year ended March 31, 2017.

Cost of sales was ¥3,205.5 billion, which was the same level as the six months ended September 30, 2016, and the ratio of cost of sales to revenues decreased 1% to 73%. Gross profit increased 3% to ¥1,170.8 billion, as compared with the six months ended September 30, 2016.

Selling, general and administrative expenses ("SG&A") decreased 4% to ¥867.6 billion, as compared with the six months ended September 30, 2016, and the ratio of SG&A to revenues decreased 1% to 20%, as compared with the six months ended September 30, 2016.

Other income decreased ¥45.7 billion to ¥3.2 billion, as compared with the six months ended September 30, 2016, due mainly to the absence of net gain on business reorganization and others related to the sale of a part of shares of Hitachi Transport System, Ltd. recorded in the six months ended September 30, 2016. Other expenses decreased ¥9.0 billion to ¥42.2 billion, as compared with the six months ended September 30, 2016, due mainly to a decrease in restructuring charges (structural reform expenses).

Financial income (excluding interest income) increased ¥7.4 billion to ¥11.6 billion and financial expenses (excluding interest charges) decreased ¥18.6 billion to ¥0.9 billion, as compared with the six months ended September 30, 2016, respectively.

Share of profits of investments accounted for using the equity method increased ¥18.1 billion to ¥21.4 billion, as compared with the six months ended September 30, 2016.

EBIT (earnings before interest and taxes, which is presented as income from continuing operations, before income taxes less interest income plus interest charges) increased ¥77.9 billion to ¥296.4 billion, as compared with the six months ended September 30, 2016.

Interest income increased ¥1.1 billion to ¥6.7 billion and interest charges increased ¥0.1 billion to ¥10.1 billion, as compared with the six months ended September 30, 2016.

Income from continuing operations, before income taxes increased ¥78.8 billion to ¥293.0 billion, as compared with the six months ended September 30, 2016.

Income taxes increased ¥19.2 billion to ¥72.8 billion, as compared with the six months ended September 30, 2016.

Loss from discontinued operations was ¥1.2 billion, as compared with the income of ¥24 million for the six months ended September 30, 2016.

Net income increased ¥58.3 billion to ¥218.9 billion, as compared with the six months ended September 30, 2016.

Net income attributable to non-controlling interests increased ¥11.1 billion to ¥58.3 billion, as compared with the six months ended September 30, 2016.

As a result of the foregoing, net income attributable to Hitachi, Ltd. stockholders increased ¥47.1 billion to ¥160.6 billion, as compared with the six months ended September 30, 2016.

## Operations by Segment

The following is an overview of results of operations by segment. Revenues for each segment include intersegment transactions. Segment profit is measured by EBIT. Since Hitachi Capital Corporation, which belonged to the Financial Services segment, was converted into an equity-method associate in October 2016, the Financial Services segment is not presented as a reportable segment from the year ending March 31, 2018.

### (Information & Telecommunication Systems)

Revenues increased 1% to ¥933.3 billion, as compared with the six months ended September 30, 2016, due mainly to the impact of foreign currency translation and higher revenues from system integration business for the Japanese market, despite lower sales of ATMs.

Segment profit increased ¥50.7 billion to ¥70.3 billion, as compared with the six months ended September 30, 2016, due mainly to the effect of structural reform centered on the storage business, increased sales of highly profitable high-end flash storage, profitability improvement in system integration business in Japan and a decrease in restructuring charges.

### (Social Infrastructure & Industrial Systems)

Revenues increased 1% to ¥1,039.1 billion, as compared with the six months ended September 30, 2016, due mainly to revenue increase in railway systems business resulting from a rise in the sales of high-speed trains for the U.K. and that in industrial products business by acquiring air compressor business with Sullair brand (Sullair Business), despite the withdrawal from low-profitable business in the industry and distribution field.

Segment profit increased ¥21.4 billion to ¥24.9 billion, as compared with the six months ended September 30, 2016, due mainly to an improvement in profitability of industrial products business and power & energy business.

### (Electronic Systems & Equipment)

Revenues decreased 4% to ¥513.6 billion, as compared with the six months ended September 30, 2016, due mainly to the deconsolidation of Hitachi Koki Co., Ltd. in the year ended March 31, 2017, despite increased revenues at Hitachi Kokusai Electric Inc. and Hitachi High-Technologies Corporation owing to higher sales of semiconductor production equipment.

Segment profit increased ¥12.9 billion to ¥39.4 billion, as compared with the six months ended September 30, 2016, due mainly to higher earnings at Hitachi Kokusai Electric Inc.

### (Construction Machinery)

Revenues increased 31% to ¥440.2 billion, as compared with the six months ended September 30, 2016, due mainly to increased sales of construction machinery in China and other overseas countries, and corporate acquisitions in Australia and the U.S. conducted by Hitachi Construction Machinery Co., Ltd. in the year ended March 31, 2017.

Segment profit increased ¥37.4 billion to ¥41.0 billion, as compared with the six months ended September 30, 2016, due mainly to the increased revenues and higher share of profits of investments accounted for using the equity methods.

### (High Functional Materials & Components)

Revenues increased 14% to ¥802.2 billion, as compared with the six months ended September 30, 2016, due mainly to increased sales of the electronics- and automotive-related products at Hitachi Metals, Ltd. and Hitachi Chemical Company, Ltd., and corporate acquisition in Italy conducted by Hitachi Chemical Company, Ltd. in the year end of March 31, 2017.

Segment profit increased ¥1.8 billion to ¥51.5 billion, as compared with the six months ended September 30, 2016, due mainly to increased sales, despite posting expenses related to competition law and others at Hitachi Chemical Company, Ltd.

### (Automotive Systems)

Revenues increased 4% to ¥488.9 billion, as compared with the six months ended September 30, 2016, due mainly to increased sales of automotive parts mainly in China and Japan and the positive impact of foreign currency translation.

Segment profit increased ¥1.6 billion to ¥22.2 billion, as compared with the six months ended September 30, 2016, due mainly to the increased revenues.

### (Smart Life & Ecofriendly Systems)

Revenues decreased 4% to ¥276.3 billion, as compared with the six months ended September 30, 2016.

Segment profit increased ¥8.6 billion to ¥18.4 billion, as compared with the six months ended September 30, 2016, due mainly to an increase in share of profits of investments accounted for using the equity method and the effect of the cost reduction efforts.

### (Others)

Revenues decreased 23% to ¥277.0 billion, as compared with the six months ended September 30, 2016, due mainly to the conversion of Hitachi Transport System, Ltd. to an equity-method associate in May 2016.

Segment profit decreased ¥1.8 billion to ¥10.6 billion, as compared with the six months ended September 30, 2016.

## Revenues by Market

Revenues in Japan decreased 5% to ¥2,110.9 billion, as compared with the six months ended September 30, 2016, due mainly to the conversion of Hitachi Capital Corporation and Hitachi Transport System, Ltd. to equity-method associates, despite higher revenues in the High Functional Materials & Components and Automotive System segments.

Overseas revenues increased 6% to ¥2,265.5 billion, as compared with the six months ended September 30, 2016, due mainly to increased revenues in Asia mainly in the Electronic Systems & Equipment and Construction Machinery segments, despite decreased revenues in Europe mainly in the Electronic Systems & Equipment segment, in which Hitachi Koki Co., Ltd. was deconsolidated.

As a result, the ratio of overseas revenues to total revenues increased 3% to 52%, as compared with the six months ended September 30, 2016.

## (2) Summary of Financial Condition, etc.

### Assets, Liabilities and Equity

The following is an overview of Hitachi's assets, liabilities and equity as of September 30, 2017.

Total assets were ¥10,042.3 billion, an increase of ¥378.4 billion from March 31, 2017. This was due mainly to the acquisition of air compressor business with Sullair brand and an increase in inventories reflecting production progress.

Total interest-bearing debt, the sum of short-term debt and long-term debt, was ¥1,271.5 billion, an increase of ¥94.9 billion from March 31, 2017. This was due mainly to an increase in short-term debt.

Total Hitachi, Ltd. stockholders' equity increased by ¥178.3 billion from March 31, 2017, to ¥3,145.4 billion, due mainly to posting net income attributable to Hitachi, Ltd. stockholders. The ratio of total Hitachi, Ltd. stockholders' equity to total assets increased 0.6% from March 31, 2017 to 31.3%.

Non-controlling interests were ¥1,196.4 billion, an increase of ¥66.5 billion from March 31, 2017.

Total equity was ¥4,341.8 billion, an increase of ¥244.8 billion from March 31, 2017. The ratio of interest-bearing debt to total equity was 0.29, which was the same level as of March 31, 2017.

### (3) Management Policy

There were no material changes in Hitachi's management policy during the six months ended September 30, 2017.

### (4) Challenges Facing Hitachi Group

#### 1) Business and Financial Condition

There were no material changes in Hitachi's business strategy during the six months ended September 30, 2017.

#### 2) Fundamental Policy on the Conduct of Persons Influencing Decision on the Company's Financial and Business Policies

The Group invests a great deal of business resources in fundamental research and in the development of market-leading products and businesses that will bear fruit in the future, and realizing the benefits from these management policies requires that they be continued for a set period of time. For this purpose, the Company keeps its shareholders and investors well informed of not just the business results for each period but also of the Company's business policies for creating value in the future.

The Company does not deny the significance of the vitalization of business activities and performance that can be brought about through a change in management control, but it recognizes the necessity of determining the impact on company value and the interests of all shareholders of the buying activities and buyout proposals of parties attempting to acquire a large share of stock of the Company or a Group company by duly examining the business description, future business plans, past investment activities, and other necessary aspects of such a party.

There is no party that is currently attempting to acquire a large share of the Company's stocks nor is there a specific threat, neither does the Company intend to implement specified so-called anti-takeover measures in advance of the appearance of such a party, but the Company does understand that it is one of the natural duties bestowed upon it by the shareholders and investors to continuously monitor the state of trading of the Company's stock and then to immediately take what the Company deems to be the best action in the event of the appearance of a party attempting to purchase a large share of the Company's stock. In particular, together with outside experts, the Company will evaluate the buyout proposal of the party and hold negotiations with the buyer, and if the Company deems that said buyout will not maintain the Company's value and is not in the best interest of the shareholders, then the Company will quickly determine the necessity, content, etc., of specific countermeasures and prepare to implement them. The same response will also be taken in the event a party attempts to acquire a large percentage of the shares of a Group company.

(5) Research and Development

There were no material changes in the research and development of the Hitachi Group (the Company and consolidated subsidiaries) stated in the Annual Securities Report for the 148th business term pursuant to the Financial Instruments and Exchange Act of Japan. The Hitachi Group's R&D expenditures in the six months ended September 30, 2017 were ¥162.2 billion, 3.7% of revenues. A breakdown of R&D expenditures by segment is shown below.

## (6) Forward-Looking Statements

Certain statements found in “3. Analyses of Consolidated Financial Condition, Operating Results and Cash Flows” and other descriptions in this report may constitute “forward-looking statements” as defined in the U.S. Private Securities Litigation Reform Act of 1995. Such “forward-looking statements” reflect management’s current views with respect to certain future events and financial performance and include any statement that does not directly relate to any historical or current fact. Words such as “anticipate,” “believe,” “expect,” “estimate,” “forecast,” “intend,” “plan,” “project” and similar expressions which indicate future events and trends may identify “forward-looking statements.” Such statements are based on currently available information and are subject to various risks and uncertainties that could cause actual results to differ materially from those projected or implied in the “forward-looking statements” and from historical trends. Certain “forward-looking statements” are based upon current assumptions of future events which may not prove to be accurate. Undue reliance should not be placed on “forward-looking statements,” as such statements speak only as of the date of this report.

Factors that could cause actual results to differ materially from those projected or implied in any “forward-looking statement” and from historical trends include, but are not limited to:

- economic conditions, including consumer spending and plant and equipment investment in Hitachi’s major markets, particularly Japan, Asia, the United States and Europe, as well as levels of demand in the major industrial sectors Hitachi serves;
- exchange rate fluctuations of the yen against other currencies in which Hitachi makes significant sales or in which Hitachi’s assets and liabilities are denominated;
- uncertainty as to Hitachi’s ability to access, or access on favorable terms, liquidity or long-term financing;
- uncertainty as to general market price levels for equity securities, declines in which may require Hitachi to write down equity securities that it holds;
- fluctuations in the price of raw materials including, without limitation, petroleum and other materials, such as copper, steel, aluminum, synthetic resins, rare metals and rare-earth minerals, or shortages of materials, parts and components;
- the possibility of cost fluctuations during the lifetime of, or cancellation of, long-term contracts for which Hitachi uses the percentage-of-completion method to recognize revenue from sales;
- credit conditions of Hitachi’s customers and suppliers;
- fluctuations in product demand and industry capacity;
- uncertainty as to Hitachi’s ability to implement measures to reduce the potential negative impact of fluctuations in product demand, exchange rates and/or price of raw materials or shortages of materials, parts and components;
- uncertainty as to Hitachi’s ability to continue to develop and market products that incorporate new technologies on a timely and cost-effective basis and to achieve market acceptance for such products;
- increased commoditization of and intensifying price competition for products;
- uncertainty as to Hitachi’s ability to attract and retain skilled personnel;
- uncertainty as to Hitachi’s ability to achieve the anticipated benefits of its strategy to strengthen its Social Innovation Business;
- uncertainty as to the success of acquisitions of other companies, joint ventures and strategic alliances and the possibility of incurring related expenses;
- uncertainty as to the success of restructuring efforts to improve management efficiency by divesting or otherwise exiting underperforming businesses and to strengthen competitiveness;
- the potential for significant losses on Hitachi’s investments in equity-method associates and joint ventures;
- general socioeconomic and political conditions and the regulatory and trade environment of countries where Hitachi conducts business, particularly Japan, Asia, the United States and Europe, including, without limitation, direct or indirect restrictions by other nations on imports and differences in commercial and business customs including, without limitation, contract terms and conditions and labor relations;
- uncertainty as to the success of cost structure overhaul;
- uncertainty as to Hitachi’s access to, or ability to protect, certain intellectual property;
- uncertainty as to the outcome of litigation, regulatory investigations and other legal proceedings of which the Company, its subsidiaries or its equity-method associates and joint ventures have become or may become parties;
- the possibility of incurring expenses resulting from any defects in products or services of Hitachi;
- the possibility of disruption of Hitachi’s operations by natural disasters such as earthquakes and tsunamis, the spread of infectious diseases, and geopolitical and social instability such as terrorism and conflict;
- uncertainty as to Hitachi’s ability to maintain the integrity of its information systems, as well as Hitachi’s ability to protect its confidential information or that of its customers; and
- uncertainty as to the accuracy of key assumptions Hitachi uses to evaluate its employee benefit-related costs.

The factors listed above are not all-inclusive and are in addition to other factors contained elsewhere in this report and in other materials published by Hitachi.

**Notes to Condensed Quarterly Consolidated Financial Statements**  
**September 30, 2017**

**(1) Nature of Operations**

Hitachi, Ltd. (the Company) is a corporation domiciled in Japan, whose shares are listed on the Tokyo Stock Exchange. The condensed quarterly consolidated financial statements of the Company as of and for the six months ended September 30, 2017 comprise the Company, its subsidiaries, and the Company's interests in associates and joint ventures. The Company's and its subsidiaries' businesses are global and diverse, and include manufacturing and services in eight segments consisting of information and telecommunication systems, social infrastructure and industrial systems, electronic systems and equipment, construction machinery, high functional materials and components, automotive systems, smart life and ecofriendly systems and others.

**(2) Basis of Presentation**

As the Company meets the requirements of a "Specified Company" pursuant to Article 1-2 of the Ordinance on the Terminology, Forms, and Preparation Methods of Quarterly Consolidated Financial Statements (Cabinet Office Ordinance No.64 of 2007), the condensed quarterly consolidated financial statements of the Company have been prepared in accordance with International Accounting Standards (IAS) 34 "Interim Financial Reporting," as permitted by the provision of Article 93 of the Ordinance. They do not include all the information and disclosures required for a complete set of financial statements prepared in accordance with International Financial Reporting Standards (IFRS), and should be read in conjunction with the financial statements and notes included in the Company's annual consolidated financial statements for the year ended March 31, 2017.

Management of the Company has made a number of judgments, estimates and assumptions relating to the application of accounting policies, reporting of revenues and expenses and assets and liabilities in the preparation of these condensed quarterly consolidated financial statements. Actual results could differ from those estimates.

Estimates and assumptions are continually evaluated. The effects of a change in accounting estimates, if any, is recognized in the reporting period in which the change was made and in future periods.

Judgments, estimates and assumptions that could have a material effect on these condensed quarterly consolidated financial statements are basically the same as those disclosed in the Company's annual consolidated financial statements for the year ended March 31, 2017.

Regarding the condensed quarterly consolidated statement of financial position, changes in presentation have been made effective the fiscal year beginning April 1, 2017 due to materiality of some account balances as a result of business reorganization and others. "Investments in securities and other financial assets," which were included in "Other current assets" as of March 31, 2017, have been reclassified and presented separately. "Lease receivables," which were separately presented under current and non-current assets, have been included in "Investments in securities and other financial assets" under current and non-current assets, respectively. "Other financial liabilities," which were separately presented under non-current liabilities, have been included in "Other non-current liabilities." The consolidated statement of financial position as of March 31, 2017 has been reclassified in order to reflect these changes in presentation.

As a result, regarding the consolidated statement of financial position as of March 31, 2017, "Other current assets" of ¥346,427 million have been reclassified as "Investments in securities and other financial assets." In addition, "Lease receivables" of ¥42,365 million and ¥38,646 million, which were presented separately under current and non-current assets, have been reclassified as "Investments in securities and other financial assets" under current and non-current assets, respectively. "Other financial liabilities" of ¥53,422 million, which were presented separately under non-current liabilities, have been reclassified as "Other non-current liabilities."

**(3) Significant Accounting Policies**

Significant accounting policies adopted in preparation of the condensed quarterly consolidated financial statements are consistent with those used in the preparation of the Company's annual consolidated financial statements for the year ended March 31, 2017.

Income taxes for the six months ended September 30, 2017 are computed using the estimated annual effective tax rate.

**(4) Segment Information**

The operating segments of the Company are the components for which separate financial information is available and which is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance.

The Company discloses its business in eight reportable segments, corresponding to categories of activities classified primarily by the similarities for the nature of markets, products and services, and economic characteristics. Several operating segments are aggregated into Social Infrastructure & Industrial Systems, Electronic Systems & Equipment and High Functional Materials & Components for financial reporting purposes so that financial statement users better understand the Company's financial position and business performance. The Company aggregates operating segments based on the similarities of economic characteristics mainly using profit margin ratios of operating segment. The primary products and services included in each segment are as follows:

**Information & Telecommunication Systems:**

Systems integration, Consulting, Cloud services, Servers, Storage, Software, Telecommunication & network and ATMs

**Social Infrastructure & Industrial Systems:**

Industrial machinery and plants, Elevators, Escalators, Railway systems, Thermal, Nuclear and Renewable energy power generation systems and Transmission & distribution systems

**Electronic Systems & Equipment:**

Semiconductor processing equipment, Test and measurement equipment, Advanced industrial products and Medical electronics equipment

**Construction Machinery:**

Hydraulic excavators, Wheel loaders and Mining machinery

**High Functional Materials & Components:**

Semiconductor and display related materials, Circuit boards and materials, Automotive parts (molded plastics, etc.), Energy storage devices, Specialty steels, Magnetic materials and components, High grade casting components and materials and Wires and cables

**Automotive Systems:**

Engine management systems, Electric powertrain systems, Drive control systems and Car information systems

**Smart Life & Ecofriendly Systems:**

Air-conditioning equipment, Room air conditioners, Refrigerators and Washing machines

**Others:**

Optical disk drives, Property management and others

In October 2016, the Company sold a certain number of shares of Hitachi Capital Corporation (Hitachi Capital). As a result, Hitachi Capital and its subsidiaries, which were included in the Financial Services segment, became equity-method associates of the Company. Accordingly, from the beginning of the third quarter of the year ended March 31, 2017, the Company includes its share of profit (loss) of investments accounted for using the equity method of Hitachi Capital and its subsidiaries in Corporate items and Eliminations.

**(5) Business Acquisitions and Divestitures**

The following are the main Business Acquisitions and Divestitures for the six months ended September 30, 2017, including the period up to the approval date of the condensed quarterly consolidated financial statements.

**(a) Sale of shares and business reorganization of Hitachi Kokusai Electric Inc. (Hitachi Kokusai)**

On April 26, 2017, the Company signed a basic agreement with HKE Holdings G.K. (HKE), which is indirectly held and operated by a related investment fund whose equity interests are wholly owned by Kohlberg Kravis Roberts & Co. L.P. and with HVJ Holdings Inc. (HVJ), in which is invested by funds which are managed, operated, provided with information and the like by Japan Industrial Partners, Inc., regarding (i) a tender offer scheduled to be conducted by HKE for the common shares of Hitachi Kokusai, which is a consolidated subsidiary of the Company in the Electronic Systems & Equipment segment and a share consolidation of the share of Hitachi Kokusai, and the acquisition of treasury shares by Hitachi Kokusai, through which Hitachi Kokusai becomes a wholly-owned subsidiary of HKE, (ii) an absorption-type company split of the thin-film process solutions business of Hitachi Kokusai, whereby HKE will be the company succeeding in the absorption-type split, to be conducted by HKE and Hitachi Kokusai after Hitachi Kokusai becomes a wholly-owned subsidiary of HKE, and (iii) the transfer by HKE of 20% of the share of Hitachi Kokusai to the Company and 20% of the share of Hitachi Kokusai to HVJ that is scheduled to take place after the absorption-type company split, and other transactions that are incidental or related to those transactions. Furthermore, on October 11, 2017, the Company signed a memorandum of understanding to amend the basic agreement (the Amendment Memorandum) with HKE and HVJ.

HKE commenced the tender offer on October 12, 2017 pursuant to the Amendment Memorandum, but it has not been completed by the approval date of this quarterly report. Assuming the tender offer is completed successfully and all related transactions are completed, it is expected that the Company's ownership ratio of shares of Hitachi Kokusai will decrease from 51.7% to 20.0% and Hitachi Kokusai will turn into an equity-method associate of the Company. The effects of this transaction on the Company's consolidated financial statements are currently being evaluated.

**(b) Acquisition of "Sullair" business**

On April 25, 2017, the Company signed an agreement with Accudyne Industries Borrower, S.C.A. (Accudyne) to acquire Accudyne's subsidiaries and certain related assets that manufacture and sell air compressors under the "Sullair" brand mainly in North America, in order to expand global business of industrial equipment business. In accordance with the agreement, on July 12, 2017 (the acquisition date), the Company and Hitachi America, Ltd., a subsidiary of the Company, acquired the Sullair business by acquiring all the shares of holding companies of the Sullair business.

The following table summarizes the fair value of the consideration paid for the Sullair business and the provisional amounts of the assets acquired and liabilities assumed recognized as of the acquisition date.

	<u>Millions of yen</u>
Cash and cash equivalents	9,341
Trade receivables	9,351
Inventories	7,409
Other current assets	790
Non-current assets (excluding intangible assets)	9,296

Current liabilities	67,282
Non-current liabilities	10,815
Total	<u>78,097</u>
Cash paid for acquisition	<u>93,288</u>

The goodwill mainly comprises excess earning power and expected synergies arising from the acquisition.

Hitachi America, Ltd. repaid USD 517 million (¥57,502 million) of loans which were included in the Sullair business, in addition to the acquisition.

## Notes to Condensed Quarterly Consolidated Financial Statements

September 30, 2017

The Company is currently evaluating the fair values to be assigned to assets and liabilities of the Sullair business at the acquisition date, and therefore the above amounts are subject to change.

The operating results of the Sullair business for the period from the acquisition date to September 30, 2017 were not material.

On a pro forma basis, revenues and net income attributable to Hitachi, Ltd. stockholders using an assumed acquisition date for the Sullair business of April 1, 2017 would not differ materially from the amounts reported in the condensed quarterly consolidated financial statements for the six months ended September 30, 2017.

The following are the main Business Acquisitions and Divestitures for the six months ended September 30, 2016.

### ***(a) Sale of shares of Hitachi Transport System, Ltd. (HTS)***

On March 30, 2016, the Company concluded an agreement regarding the transfer of common stocks of HTS, a subsidiary of the Company included in the Others in segment information, in order to expand the scope of the Social Innovation Business by enhancing logistics platforms. In accordance with this agreement, a certain number of shares of HTS common stocks owned by the Company were transferred to SG Holdings Co., Ltd. on May 19, 2016.

As a result of this transfer of shares, the Company's ownership ratio of shares of HTS decreased from 59.0% to 30.0%, and HTS ceased to be the Company's consolidated subsidiary and became its equity-method associate. A gain on the sale of shares of HTS in the amount of ¥44,958 million was recognized in Other income in the condensed quarterly consolidated statement of profit or loss. Changes in non-controlling interests in the condensed quarterly consolidated statement of changes in equity include derecognition of non-controlling interest in HTS as a result of its deconsolidation.

**(6) Fair Value of Financial Instruments**

***(a) Fair Value Measurements***

The following methods and assumptions are used to measure the fair value of financial assets and liabilities.

**Cash and cash equivalents, Trade receivables, Short-term loans receivable, Other receivables, Short-term debt, Other payables and Trade payables**

The carrying amount approximates the fair value because of the short maturity of these instruments.

**Investments in securities and other financial assets**

The fair value of lease receivables is based on the present value of lease payments receivable based on years to maturity, using discount rates that reflect the time to maturity and credit risk.

Investment securities with quoted market prices are estimated using the quoted share prices. In the absence of an active market for investment securities, quoted prices for similar investment securities, quoted prices associated with transactions that are not distressed for identical or similar investment securities or other relevant information including market interest rate curves, referenced credit spreads or default rates, are used to determine fair value. If significant inputs of fair value measurement are unobservable, the Company uses price information provided by financial institutions to evaluate such investments. The information provided is corroborated by the income approach using its own valuation model, or the market approach using comparisons with prices of similar securities.

The fair value of long-term loans receivable is estimated based on the present value of future cash flows using the interest rate applicable to an additional loan of the same type.

Derivative assets are measured at fair value based on quoted prices associated with transactions that are not distressed, prices in inactive markets, or based on models using interest rate curves and forward and spot prices for currencies and commodities. If significant inputs are unobservable, the Company mainly uses the income approach or the market approach to corroborate relevant information provided by financial institutions and other available information.

**Long-term debt**

The fair value of long-term debt is estimated based on quoted market prices or the present value of future cash flows using the market interest rates applicable to the same contractual terms.

**Other financial liabilities**

Derivative liabilities are measured at fair value based on quoted prices associated with transactions that are not distressed, prices in inactive markets, or based on models using interest rate curves and forward and spot prices for currencies and commodities. If significant inputs are unobservable, the Company uses mainly the income approach or the market approach to corroborate relevant information provided by financial institutions and other available information.

**Notes to Condensed Quarterly Consolidated Financial Statements**  
**September 30, 2017**

**(b) Financial Instruments Measured at Amortized Cost**

The carrying amounts and estimated fair values of the financial instruments measured at amortized cost as of September 30 and March 31, 2017 are as follows.

The fair value estimated for financial assets and liabilities measured at amortized cost is classified in Level 2 of the fair value hierarchy.

Millions of yen

	September 30, 2017		March 31, 2017	
	Carrying amounts	Estimated fair values	Carrying amounts	Estimated fair values

Long-term debt	767,435	774,158	770,723	777,341

[1] Long-term debt is included in Current portion of long-term debt and Long-term debt in the condensed quarterly consolidated statement of financial position.

**(c) Financial Instruments Measured at Fair Value**

Financial instruments measured at fair value on a recurring basis after the initial recognition are classified into three levels of the fair value hierarchy based on the measurement inputs' observability as follows:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets
- Level 2: Valuations measured by direct or indirect observable inputs other than Level 1
- Level 3: Valuations measured by significant unobservable inputs

When several inputs are used for a fair value measurement, the level is determined based on the input that is significant with the lowest level in the fair value measurement as a whole.

Transfers between levels are deemed at the beginning of each quarter period.

[2] Gain (loss) in OCI related to FVTOCI financial assets is included in Net changes in financial assets measured at fair value through OCI in the condensed quarterly consolidated statement of comprehensive income.

[3] Transfer from Level 3 is mainly the result of an investee being listed on the stock market.

[4] Unrealized gain (loss) relating to FVTPL financial assets held at the end of period is included in Financial income and Financial expenses in the condensed quarterly consolidated statement of profit or loss.

Written put options on non-controlling interests of subsidiaries are not included in the above table. Such put options are classified as Level 3 financial liabilities measured on a recurring basis, and changes in fair value are recognized in Capital surplus. The fair value of the put options above as of September 30 and March 31, 2017 were ¥16,739 million and ¥14,495 million, respectively, included in Other financial liabilities in the condensed quarterly consolidated statement of financial position.

Fair values are measured by the finance departments in accordance with the Company's policies and procedures. Valuation models are determined so that they reflect each financial instrument's nature, characteristics and risks most appropriately. The finance departments continually examine changes in important inputs that could affect the fair value. In case the fair value of a financial instrument was significantly impaired, administrators review and approve the impairment loss.

**(12) Contingencies**

**(a) *Litigation***

In June 2009, a subsidiary in Japan received a grand jury subpoena in connection with the investigation conducted by the Antitrust Division of the U.S. Department of Justice and received requests for information from the European Commission in respect of alleged antitrust violations relating to optical disk drives. In November 2011, the subsidiary in Japan paid a fine in relation to the investigation from the Antitrust Division of the U.S. Department of Justice. In July 2012, the subsidiary in Japan received a statement of objections from the European Commission in respect of alleged antitrust violations. In October 2015, the European Commission announced the amount of the fine for the subsidiary in Japan in respect of alleged antitrust violations, and in June 2016, two subsidiaries in Japan and Korea paid the fines.

In July 2011, a subsidiary in the U.S.A. received a grand jury subpoena from the Antitrust Division of the U.S. Department of Justice, the Company and a subsidiary in Europe received requests for information from the European Commission, and a subsidiary in Canada received requests for information from the Canadian Competition Bureau, all in respect of alleged antitrust violations relating to automotive equipment. In November 2013, a subsidiary in Japan, which had been also primarily responsible for responding to the investigation from the Antitrust Division of the U.S. Department of Justice, paid fines. In January 2016, the Company and the subsidiary in Japan which had been also primarily responsible for responding to the investigation from European Commission reached a settlement with the European Commission, and paid fines in April 2016.

In April 2014, a subsidiary in the U.S.A. received a grand jury subpoena in connection with the investigation conducted by the Antitrust Division of the U.S. Department of Justice in respect of alleged antitrust violations relating to automotive equipment. In August 2016, a subsidiary in Japan, which had been also primarily responsible for responding to the investigation, concluded an agreement in which the subsidiary will pay fines, and paid fines in March 2017.

In June 2014, a subsidiary in Japan was investigated by the Japan Fair Trade Commission in respect of alleged antitrust violations relating to capacitors. In March 2016, the subsidiary received a notice that the investigation was over from the Japan Fair Trade Commission. The subsidiary in Japan and subsidiaries in Europe, the U.S.A., and others are being investigated by competition authorities in each country or region, all in respect of alleged antitrust violations relating to capacitors. In April 2016, the subsidiary in Japan concluded an agreement in which the subsidiary will pay fines, and in June 2016, the subsidiary in Japan paid the fines. In November 2015, the subsidiaries in Japan received a statement of objections from the European Commission in respect of alleged antitrust violations.

In addition to the above, the Company, its subsidiaries and associates have cooperated with the competent authorities. Depending upon the outcome of these matters, fines or surcharge payments, the amount of which is uncertain, may be imposed on them. Also, in connection with pending and settled antitrust violations, civil disputes, including class action lawsuits, involving the Company and some of these companies have arisen in a number of countries, including in the U.S.A. and Canada. An amount, which was considered to be a reasonable estimate in respect of these claims, was accrued for the potential losses in relation to certain of these civil disputes.

In August 2012, a subsidiary in Europe received a complaint filed by a customer in Europe seeking compensation for consequential losses of EUR 1,058 million (¥140,634 million), additional costs and interest allegedly incurred by the delay in the construction process of a power plant against, jointly and severally, the Company, the subsidiary in Europe, a consortium including the Company and the subsidiary in Europe, and two other companies. In addition, in October 2013 and February 2016, the subsidiary in Europe received additional complains requesting compensation for consequential losses of EUR 239 million (¥31,816 million) and EUR 105 million (¥13,901 million), respectively. In June 2016, the Company was informed that the customer added an associate in Europe as one of the defendants. Although the Company, the subsidiary and the associate in Europe and the consortium will vigorously defend themselves against this lawsuit, there can be no assurance that they will not be held liable for any amounts claimed.

In December 2013, the Company, a subsidiary in Europe and a consortium consisting of the Company and the subsidiary in Europe, jointly and severally received a request from a customer in Europe to refer a dispute to arbitration demanding EUR 637 million (¥84,648 million) in compensation for consequential losses allegedly incurred by the delay in the construction process of a power plant. In November 2016, an arbitral award was issued by an arbitral tribunal and the award was paid in February 2017. In addition, a settlement regarding a part of unsettled matters was paid in July 2017. The customer, the Company, the subsidiary

in Europe and the consortium consisting of the Company and the subsidiary in Europe continue their negotiations to achieve a final settlement regarding other unsettled matters.

In addition, in December 2015, these companies, jointly and severally received a request for arbitration from the customer demanding EUR 161 million (¥21,432 million) in compensation primarily for performance related deficiencies of a power plant. As of September 30, 2017, the amount of compensation claimed by the customer was changed to EUR 163 million (¥21,759 million). Although, the Company, the subsidiary in Europe and the consortium consisting of the Company and the subsidiary in Europe will vigorously defend themselves against this lawsuit, there can be no assurance that they will not be held liable for any amounts claimed.

In January 2016, a subsidiary in Europe notified its customer in Europe that the subsidiary had commenced arbitration proceedings to resolve a disagreement about construction of a power plant, and then the arbitration was started. While the subsidiary is seeking payments of the unpaid amounts based on the contract, a counterclaim was filed by the customer. Thus, there can be no assurance that the subsidiary will not be held liable for any amounts.

The Company and its subsidiaries execute a number of business reorganizations, including mergers, acquisitions and divestitures. Contracts for these reorganizations include clauses for transaction price adjustments subsequent to the reorganizations. There is a possibility products or services provided by the Company and its subsidiaries contain defects. As the result of price adjustments, or in compensation for defects in products or services etc. there is a possibility that the Company pays for any amounts.

Depending upon the outcome of the above legal proceedings, there may be an adverse effect on the consolidated financial position or results of operations. Currently, the Company is unable to estimate the adverse effect, if any, of many of these proceedings. The actual amount of fines, surcharge payments or any other payments resulting from these legal proceedings may be different from the accrued amounts.

In addition to the above, the Company and its subsidiaries are subject to legal proceedings and claims which have arisen in the ordinary course of business and have not been finally adjudicated. These actions when ultimately concluded and determined will not, in the opinion of management, have a material adverse effect on the condensed quarterly consolidated financial position or results of operations of the Company and subsidiaries.

**(b)Other**

On February 1, 2014 (hereinafter the “effective date of company split”), the Company and Mitsubishi Heavy Industries, Ltd. (hereinafter “MHI”) integrated their thermal power generation systems businesses into MHI’s consolidated subsidiary, MITSUBISHI HITACHI POWER SYSTEMS, LTD. (hereinafter “MHPS”), through a spin-off in the form of an absorption-type company-split. As part of this business integration, assets and liabilities associated with boiler construction projects for Medupi and Kusile Power Stations for which the Company’s consolidated subsidiaries in the Republic of South Africa, Hitachi Power Africa Proprietary Limited (hereinafter “HPA”) and other companies received orders in 2007, as well as their contractual status in relation to customers, and rights and obligations thereof were transferred from HPA to MHI’s consolidated subsidiary, Mitsubishi Hitachi Power Systems Africa Proprietary Limited (hereinafter “MHPS Africa”) (hereinafter, the “Transfer of South African Business”).

Under the agreement executed between the Company and MHI regarding the Transfer of South African Business, the Company and HPA shall be liable for contingent liabilities resulting from events that occurred before the effective date of company split as well as claims that had already been made as of the said date, while MHPS and MHPS Africa shall be held responsible for the execution of business on and after the effective date of company split. Given these conditions, it has been agreed upon to determine the final transfer price upon agreement on future construction schedule as of the effective date of company split and confirmation of estimated project cash flows based on such schedule between the parties, and settle the difference with the provisional price.

On March 31, 2016, MHI requested the Company to pay ZAR 48,200 million (approximately ¥379.0 billion when ZAR 1 = ¥7.87) to MHPS Africa as a portion of transfer price adjustment, etc. The Company replied to MHI on April 6, 2016 that the details of the demand letter lacked legal grounds under any agreement and thus the Company cannot accept it.

On January 31, 2017, MHI extended the amount above and requested the Company to pay ZAR 89,700 million (approximately ¥763.4 billion when ZAR 1 = ¥8.51). The Company again replied to MHI that the Company cannot accept the request since it

lacks legal grounds under any agreement as does the request of March 2016. On August 21, 2017, the Company received a notice from the Japan Commercial Arbitration Association (hereinafter, the "JCAA") stating that MHI had filed a request for arbitration with the JCAA on July 31, 2017 in order to claim for payment of ZAR 90,779 million (approximately ¥774.3 billion when ZAR 1 = ¥8.53) as the said transfer price adjustment, etc. against the Company. The Company will address this claim and explain its position in the arbitration proceedings.

The Company has recorded provisions based on reasonable estimates for the aforementioned agreement related to the South African Business. The amount of the said transfer price adjustment, etc. to be determined under the agreement may be different from the accrued amount.

### **(13) Approval of Condensed Quarterly Consolidated Financial Statements**
