across
Europe

HITACHI

A satellite night view of Europe, showing the continent illuminated by city lights. The lights are concentrated in major urban centers and along coastlines, creating a glowing pattern against the dark background of the night sky. The word "HITACHI" is overlaid in the top right corner.

Welcome to Hitachi in Europe

Since establishing Hitachi Europe's headquarters in 1981, we have been committed to transforming society as a climate-change innovator – helping governments, cities and companies reduce carbon emissions. Our mission is to create harmony between the environment, people's well-being and economic growth.

Across Europe, we pursue this mission leveraging our technologies to generate economic, environmental and social value.

Through our work in Digital Systems & Services, Energy, Mobility and Connective Industries, we support the transition to cleaner energy systems, improve transport networks and help European industries adapt, innovate and create lasting value.

Today, we are a major global investor, represented by 51,000 diverse and passionate employees across the region, committed to improving society and contributing to Europe's ambition to become the world's first climate-neutral continent by 2050.

This document highlights projects and innovations that demonstrate how Hitachi is inspiring the next and delivering meaningful value across Europe and its people. Asking 'what's next?' drives us to address society's biggest challenges, delivering sustainable solutions that shape a truly harmonised society.

We are working to connect solutions within Energy and Mobility, both physically and digitally, to deliver net-zero.

Did you know in Transport...

+ Energy

In Italy, Hitachi introduced Masaccio, Europe's first hybrid-battery passenger train, cutting CO₂ emissions by up to 50%.

Hitachi Rail

+ Energy

In Spain, Hitachi equips 70% (2,800 km) of the Spanish High-Speed Network with interlocking, ETCS, train control, communications and security systems.

Hitachi Rail

+ IT

In Germany, Hitachi strengthened control and interlocking systems on the Husum-Keitum route through a 25-year Deutsche Bahn partnership, serving 900,000 tourists annually.

Hitachi Rail

+ IT

In France, Hitachi has partnered on the Grand Paris Express, adding 200 km of tracks and 68 stations to serve 2 million passengers daily.

Hitachi Rail

+ IT

In Denmark, Hitachi delivered the driverless Copenhagen Metro for 25+ years, enhancing passenger experience and operational efficiency.

Hitachi Rail

+ IT

In Italy, Hitachi is upgrading 1,885 km of railway with ERTMS digital signalling under a €867 M framework for central and northern lines.

Hitachi Rail

+ IT

In Italy, Hitachi has signed an €861 M contract with Trenitalia for 30 new ETR1000 trains (option for 10 more), boosting high-speed mobility.

Hitachi Rail

+ IT

In Italy, Hitachi supplied ERTMS signalling for the Verona–Padua high-speed line, modernising infrastructure and increasing rail capacity.

Hitachi Rail

+ IT

In France, Hitachi completed the first dynamic test of digital interlocking signalling on the Paris–Lyon high-speed line ahead of service launch.

Hitachi Rail

+ IT

In Romania, Hitachi has modernised the Ghioroc–Bârzava line with upgraded signalling and infrastructure, enabling speeds up to 140 km/h and reducing journey times by 25%.

Hitachi Rail

+ IT

In Poland, Hitachi signed a 2025 contract to implement ERTMS Level 2 signalling on the Warsaw–Radom line, boosting capacity and reducing travel times.

Hitachi Rail

+ IT

In Portugal, Hitachi modernised Lisbon Metro’s Passenger Information System with new central systems, digital screens, and station-wide PA for real-time updates.

Hitachi Rail

+ IT

In Europe, Hitachi supported Eurostar’s AWS migration ahead of schedule, improving Oracle EBS performance, minimising downtime, and enabling faster, more efficient operations.

Hitachi Digital Services

+ IT

In Sweden, GlobalLogic has been selected by Volvo Cars as a strategic engineering partner to design next-gen software-upgradable vehicles.

GlobalLogic

+ IT

In Europe, GlobalLogic collaborated with PlaxidityX to integrate DevSecOps and SDV frameworks, streamlining development and enhancing automotive cybersecurity.

GlobalLogic

+ IT

In France, Hitachi is participating in a final-round RFP with Hitachi Rail to deliver a data and analytics solution for new metro lines in the Paris region.

Hitachi Solutions

Did you know in Energy...

In Finland, Hitachi is powering over half of Finland's wind energy, delivering electricity safely to homes and businesses.

Hitachi Energy

In Europe, Hitachi is a leading manufacturer of subsea transformers that operate at depths up to 3,000 metres.

Hitachi Energy

In Finland, Hitachi has electrified the country's first industrial-scale hydrogen plant with P2X solutions.

+ IT

Hitachi Energy

In Andorra, Hitachi has partnered with FEDA to build La Gonarda ETR, an eco-designed substation using EconiQ® technology to cut emissions, reduce noise and blend into the landscape while ensuring reliable power for homes and businesses.

+ IT

Hitachi Energy

In Finland, Hitachi has supplied WindSTAR™ transformers for offshore wind, powering over a million homes worldwide.

+ IT

Hitachi Energy

In Norway, Hitachi has enabled the world's longest AC power-from-shore link across the North Sea (250 km).

+ Transport + IT

Hitachi Energy

In Poland, Hitachi is driving the Battyk 2 and Battyk 3 offshore wind farms, advancing Poland's renewable energy goals.

Hitachi Energy

In Spain, Hitachi is expanding transformer production in Córdoba to support grid reliability and create local jobs.

Hitachi Energy

In Germany, Hitachi is expanding its Bad Honnef transformer facility, increasing production capacity to support Europe's energy transition and enhance grid resilience.

+ IT

Hitachi Energy

In Germany, Hitachi is partnering with E.ON to supply transformers that modernise the grid, improve energy security, and meet growing electricity demand sustainably.

+ IT

Hitachi Energy

In Sweden, Hitachi demonstrated its HyFlex hydrogen-powered generator at Gothenburg port, providing zero-emission shore power for ships and offering a cleaner alternative to diesel generators.

+ Transport + IT

Hitachi Energy

In Switzerland, Hitachi is enabling NVIDIA's 800-volt DC AI data centres with efficient 'grid to rack' power systems, delivering cleaner, scalable electricity for high-performance computing.

+ IT

Hitachi Energy

In Norway, Hitachi and Statnett are installing SF₆-free EconiQ® switchgear, boosting transmission capacity, improving reliability, and supporting the country's net-zero ambitions.

+ IT

Hitachi Energy

In Italy and France, Hitachi is delivering the HVDC 'Sa.Co.I.3' link, connecting Italy, Sardinia and Corsica to provide more efficient, reliable and sustainable underwater power transmission.

+ IT

Hitachi Energy

In Europe, Hitachi has implemented Microsoft Dynamics 365 Finance for Plastic Energy – improving efficiency, supply chain management and circular-economy operations.

+ IT

Hitachi Solutions

In Denmark, Hitachi is supporting Danske Commodities in the energy and IT sectors with advanced data solutions to optimise energy trading, enhance analytics, and improve operational efficiency.

+ IT

Hitachi Vantara

In Norway, Hitachi optimises EV charging for Posten Bring's 161 vans and trucks in Oslo.

+ Transport

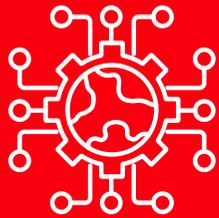

Hitachi ZeroCarbon

In Europe, Hitachi analyses battery health of COBUS EV buses at 10 airports across Europe.

+ Transport

Hitachi ZeroCarbon

Did you know in IT...

+ Financial Services

In the Netherlands, Hitachi built a centralised ingest and search platform for Rabobank, cutting compliance investigation times from weeks to hours.

Hitachi Vantara

+ Energy

In Italy, Hitachi migrated La Molisana (Italian food company) to an energy-efficient VSP One Block platform, delivering 2.5× better performance, improved ERP/logistics data handling, and lower energy consumption.

Hitachi Vantara

In Europe, Hitachi has rolled out Microsoft Dynamics 365 omnichannel platform for Sonepar – modernising B2B operations, standardising sales processes, and improving customer and data management across 40 countries.

Hitachi Solutions

In France, Hitachi went live at ONF with a Microsoft cloud platform (ERP, CRM, analytics, mobile) to optimise logistics and commercial management of state forests.

Hitachi Solutions

+ Financial Services

In Spain, Hitachi deployed edge-based cloud storage over 5G for Telefónica Spain, allowing bank branches to eliminate local storage and scale seamlessly.

Hitachi Vantara

+ Energy

In Turkey, Hitachi deployed VSP for Türk Telekom, reducing data centre space and energy use by ~60%, improving response times fivefold, and lowering total cost of ownership.

Hitachi Vantara

In Germany, Hitachi deployed AI-powered solutions for WEINIG Group, including automated document processing and an AI assistant, boosting efficiency, reducing costs and speeding response times.

Hitachi Solutions

+ Transport

In Germany, Hitachi provided private cloud storage and managed services for BMW Group, supporting 60 PB of production data with high-performance, scalable infrastructure.

Hitachi Vantara

In Germany, Hitachi has unified 7,000 systems for RWTH Aachen University and 41 state universities into a 56 PB backup/recovery platform, improving resilience, reducing risk and costs, and enhancing cybersecurity.

Hitachi Vantara

In France, Hitachi implemented SAP S/4HANA for a leading aero- and defence-components manufacturer, standardising operations and creating a unified 'single source of truth.'

Hitachi Digital Services

+ Financial Services

In Switzerland, Hitachi has unified Bank Vontobel's storage landscape and migrated 40 TB (80 million objects) with zero downtime, enabling flexible, integrated global storage.

Hitachi Vantara

In Poland, GlobalLogic opened a 24/7 Security Operations Centre with Hitachi Systems Trusted Cyber Management, using AI monitoring to save £1-3 M annually in security and downtime costs.

GlobalLogic

In Germany, Hitachi implemented a real-time DataOps platform for Blechwarenfabrik Limburg, reducing insight time from two weeks to seconds and delivering 100+ live dashboards for faster, data-driven decisions.

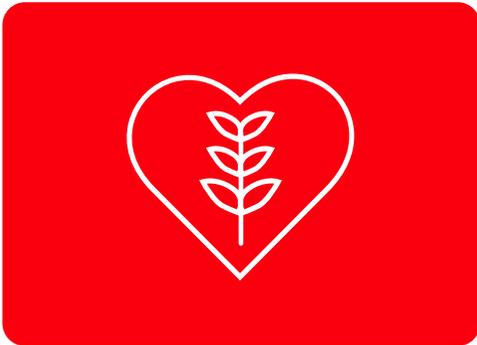

Hitachi Digital Services

In Switzerland, Hitachi has delivered private cloud and hybrid-flash storage for SFS Group's SAP and enterprise workloads, reducing TCO by ~20% and simplifying data management.

Hitachi Vantara

Did you know in **Health...**

+ IT

In the UK, Hitachi has a dynamic partnership with London South Bank University Healthcare Hub, NHS, Verizon, Visionable and Siemens to pioneer innovative healthcare delivery, reducing hospital stays by over 15%, optimising resource management, enhancing patient experiences and training 30% of the country's nurses.

Hitachi Digital Services

+ IT

In Europe, Hitachi partnered with Italy's ELITechGroup to supply fully automated PCR molecular testing systems for diagnosing and monitoring infectious diseases, improving efficiency in microbiology and virology laboratories across the region.

Hitachi High-Tech

+ IT

In the UK, Hitachi drives the technology that supports 2.5 million women receiving breast cancer screening each year, improving access and efficiency.

Hitachi Digital Services

+ IT

In the UK, Hitachi supplies electron microscopy equipment to UK academic institutions and semiconductor manufacturers, supporting advanced research and development.

Hitachi High-Tech

+ IT

In the UK, Hitachi works with I Holland to analyse tooling samples, identifying their composition in just one second to accelerate quality control and research.

Hitachi High-Tech

In Germany, GlobalLogic partnered with Asensus Surgical to advance next-gen robotic surgery, combining DeviceSure™ test acceleration and global engineering to improve precision and intelligence.

GlobalLogic

+ IT

In Italy, Hitachi migrated Orthofix to a cloud-based Oracle PLM, automating workflows, removing data silos, and providing real-time insights to speed product development and improve quality.

Hitachi Digital Services

In Europe, Hitachi has supplied high-resolution SEM and ion milling equipment to BIOTRONIK, supporting research and quality control in biomedical device manufacturing.

Hitachi High-Tech

+ IT

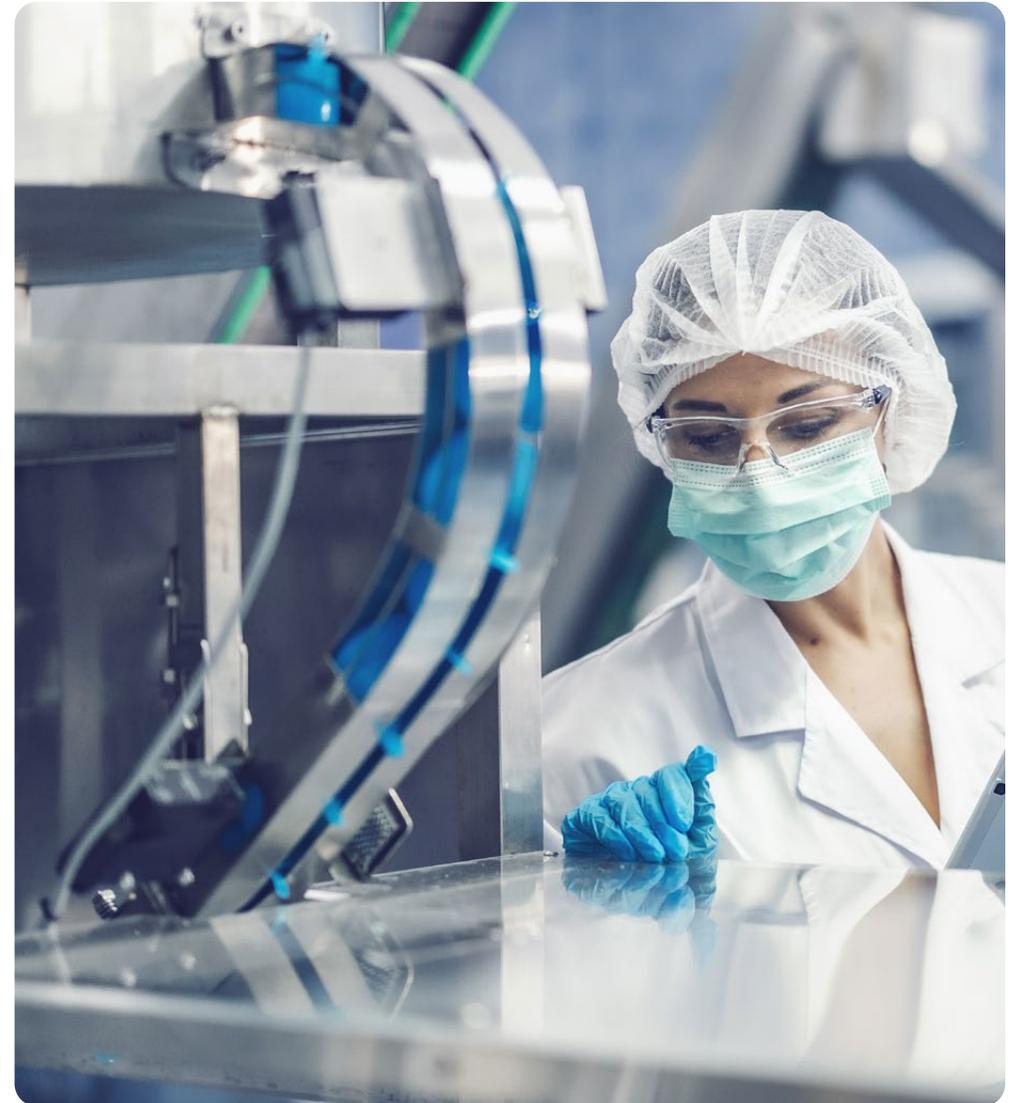

In Europe, Hitachi provides 80,000+ in vitro diagnostic devices, performing ~20 billion blood tests annually worldwide.

Hitachi High-Tech

+ IT

In the UK, Hitachi supports Novartis, who depend on our resilient compute and storage infrastructure.

Hitachi Vantara

Did you know in Leisure...

+ IT

In the UK, Hitachi drives Manchester football clubs' loyalty programme, engaging over 5 million fans with rewards and personalised experiences.

Hitachi Digital Services

+ IT

In Portugal, Hitachi enabled Fundação Oriente's immersive exhibition using 3D Lidar and interactive audiovisuals, turning museum visits into dynamic, engaging experiences.

Hitachi Digital Services

+ IT

In the UK, Hitachi supports a sports betting company (Bet365), who rely on Hitachi data technology to power their growth.

Hitachi Vantara

+ IT

In the UK, Hitachi helps the Ashmolean Museum in Oxford with XRF analysis, supporting curatorial and conservation work, including provenance studies, dating, restoration identification, authentication and corrosion analysis.

Hitachi High-Tech

+ IT

In the UK, Hitachi provides the Mary Rose Trust's conservation team with handheld XRF analysers, used regularly to investigate and characterise materials in their historical collection.

Hitachi High Tech

Did you know in Financial Services...

In Germany, Hitachi replaced Union Investment's legacy CRM with Microsoft Dynamics 365, unifying 800 users on a platform to manage 5.8 M clients and streamline sales, marketing and forecasting.

Hitachi Solutions

+ IT

In Turkey, Hitachi is supporting Destekbank in the banking and IT sectors with advanced data solutions to modernise infrastructure, boost efficiency and deliver faster, more secure banking services.

Hitachi Vantara

+ IT

In the UK, Hitachi supports large UK banks in operating core data storage and data protection infrastructure globally, including data replication, with over 100 specialists monitoring and maintaining these systems.

Hitachi Vantara

+ IT

In Austria, Hitachi helped Raiffeisen Bank International accelerate cloud modernisation by 40%, migrating ~50% of selected applications by end of 2023.

Hitachi Digital Services

+ IT

In the UK, Hitachi monitors 9 billion Clubcard records and transactions weekly as part of its work with Dunnhumby, supporting advanced analytics and customer insights.

Hitachi Digital Services

+ IT

In the UK, Hitachi technology enables 130 million meal orders each year in pubs and restaurants, streamlining service and operations.

Hitachi Digital Services

+ IT

In Romania, GlobalLogic has helped BCR launch the country's first fully digital mortgage app, enabling 100% online house loan applications.
